The Future of
Squeegee Blades
is Here

► **Genuine PREMATEK Squeegee Blades are engineered from Natural Rubber using advanced technology.**

► **The result is the next generation of squeegees!**

► Years of research into the problems typically associated with standard squeegees has resulted in the development of PREMATEK squeegees, which have been designed to address ALL of these problems.

1

Longer life with no reduction in elasticity and flexibility

2

Improved water pick-up regardless of the floor surface

3

Less friction means less force is needed to collect water

4

Our unique formula helps the squeegee to stay dirt repellent longer

5

Less energy is required, which increases battery life, even when using less water

Technical Specifications

Properties	Value	Standard
Hardness	37.6A	ASTM D2240
Tensile Strength	3524 psi	ASTM D412
Elongation at Break	835%	ASTM D412
Tear Strength	44.5 N/mm	ISO 34
Abrasion Resistance	15mm ³	ISO 4649
Density	.95g/m ³
